LUCAS HENRIQUE SALES SANTOS

JUNIOR DATA ANALYST

Restinga Sêca – Rio Grande do Sul, Brazil | (61) 92004-8060 | lucashs.sales@gmail.com

LinkedIn: linkedin.com/in/lucash-sales | GitHub: https://lucassalees3.github.io/dataanalysis-portfolio/

PROFESSIONAL OBJECTIVE

To work as a Junior Data Analyst, applying SQL, Python and Business Intelligence to turn data into business insights, leveraging more than four years of experience in corporate environments, SAP ERP and IT process management.

PROFESSIONAL SUMMARY

IT professional transitioning into Data, with experience in L1/L2 support, infrastructure and SAP MM ERP. Hands-on experience tracking SLAs and KPIs, building management reports, documenting processes and ensuring information quality. Currently pursuing a degree in Information Systems, with the TripleTen Data Analytics Bootcamp scheduled to start in October 2026. Analytical, evidence-driven profile with a structured approach to problem solving.

TECHNICAL SKILLS

Data analysis: SQL (queries, JOINs and aggregations), Python (Pandas and NumPy), data cleaning and preparation, exploratory data analysis (EDA) and descriptive statistics.

BI and visualization: Power BI, Tableau, dashboards, management reports and data storytelling.

Tools and business: Excel (proficiency level to be confirmed), SAP (MM, FI, CO, SD and HCM), process mapping, data governance, ITIL/ITSM, Active Directory and Microsoft 365.

PROFESSIONAL EXPERIENCE

INSI | Support Analyst (L1/L2) | 07/2024 – Present | Rio Grande do Sul, Brazil (hybrid)

- Monitors service SLAs and KPIs and identifies trends in recurring incidents; reports a 50% reduction in average resolution time through preventive actions.

- Produces and analyzes performance reports from the ticketing management tool, supporting resource allocation decisions.
- Standardizes and documents technical procedures (SOPs) and knowledge base articles, promoting consistency and traceability of information.
- Serves as SAP MM key user, supporting master data consistency and procurement processes.
- Applies root cause analysis to critical incidents to reduce the recurrence of systemic failures.

EVOLUTION IT SERVICE | IT Support Analyst | 11/2021 – 07/2024 | Rio Grande do Sul, Brazil (on-site)

- Mapped and documented IT workflows, identifying operational bottlenecks and proposing data-driven improvements.
- Analyzed system and infrastructure performance metrics to support preventive actions and risk mitigation.
- Managed identities and access in Active Directory in line with security and governance policies.
- Translated business requirements into technical solutions, bridging operational needs and the IT team.

FUNDAÇÃO ANTONIO MENEGHETTI | IT Intern | 03/2021 – 11/2021 | Restinga Sêca, RS, Brazil

- Structured and standardized the technical knowledge base, helping reduce onboarding time for new team members and rework.
- Supported the tracking of service indicators and the documentation of internal processes.
- Took part in continuous improvement initiatives to improve information flow between departments.
